TUBULAR NUGGET

Softer, chewable texture with good cooling. Cylindrical shaped nugget with 5/8" diameter and average length of approximately 1". With the longer pieces and 90% ice quality, tubular nugget is ideal for dispensing applications reducing the potential for congealing ice and minimizing drink dilution. Daily ice production from 300 to 1,300 lbs.

Offered on the RN Modular Series

GOURMET

Gourmet spray cubes are offered in a variety of cube sizes and production capacities. Perfect for cafés, bars and restaurants in countries where demand for ice in beverages is reduced. Currently not available in North America.

SCALE

Scale ice is extremely hard and cold with sizes ranging from 1.5 mm to 3 mm in thickness. Ice pieces resemble a shattered sheet of ice. Scale is perfect for industrial applications, food processing and display such as fish, dairy products, meat cutting, and baking companies. Currently not available in North America.
