

Commercial Refrigeration Condensate Evaporator Pans

For condensate applications where no drain is available, choose the large capacity pan that fits your application. SUPCO commercial refrigeration condensate evaporator pans are made from top quality materials for durable, long life.

FEATURES/BENEFITS

- Corrosion resistant 22 gauge stainless steel construction.
- CP804HD & CP804HD-240 include 20 gauge stainless steel construction.
- Made from top quality materials and components for longer, more durable use.
- Positive evaporation
- Space saving
- High limit safety and float switch operation
- Available In 120, 208 and 240 volts
- Warranty-One Year from date of installation.
- UL Recognized - File# SA32471

APPLICATIONS

- Evaporates defrost and condensation where no drain is available.
- Used in supermarket refrigeration systems and elevators.
- **These pans are used for water dissipation ONLY! DO NOT OPERATE "DRY".**
- Clean the pan and check the float every 30 days for optimum performance and operation.
